

TAX DOLLARS FOR HUMAN NEEDS, NOT FOR WAR!

Since 2000, the U.S. has been funding a war against the Colombian people through its aid proposals entitled Plan Colombia. Colombia, after Israel and Egypt, is the 3rd highest recipient of military aid from the US, and their government is using American tax dollars to kill trade unionists, human rights workers, and civilians.

Plan Colombia

Since 2000 the U.S. has invested 3 billion dollars in Colombia's civil war. The aid provides fumigation chemicals, attack helicopters, weaponry, hi-tech surveillance planes and equipment. U.S. military aid to Latin America has more than tripled in the past 5 years. In 2003, the Bush administration won more increases in military aid and involvement, including a \$100 million military aid project to protect Occidental's oil pipeline in northern Colombia.

Colombian human rights, labor rights and other activists are calling for an END to U.S. military aid and intervention. Amnesty International and Human Rights Watch have documented how paramilitary death squads work hand in hand with the Colombian military and reap the benefits of U.S. military aid. Not only does Colombia have the worst human rights record in the Western Hemisphere, but also it has become even worse due to Plan Colombia! Political assassinations and disappearances are all too common, and trade unionists are the hardest hit. U.S. corporations even employ paramilitary groups to intimidate, threaten and murder Colombian union leaders. Colombia is the world's most dangerous place to be a union organizer. On average, 3 trade unionists are murdered per week! Coca-Cola is now the subject of an international boycott campaign, because of its use of paramilitary violence against its union workers.

Boycott Killer Coke

Since July 22, 2003 there has been an international boycott of all Coca-Cola products in response to the beverage union's request for international solidarity. Coke has hired paramilitary death squads to threaten, kidnap and even murder trade unionists to break the workers' union in Colombia. Nine Coca-Cola trade unionists have been murdered so far! Stand in solidarity

with the workers organizing for human and labor rights by refusing to drink and purchase Coke products.

End US Military Aid

On February 2nd, Bush proposed a federal budget for 2005, which includes a proposal for 700 million in aid to Colombia—including 109 million to finance a special Colombian military brigade to protect an oil pipeline and to train and equip new military leaders. Call Congress and the president to say **NO** to continuing Plan Colombia! Call to say money for human needs, not for military aid! Call 202-223-3121 for the Capitol switchboard.

**For more information about the boycott of Killer Coke, go to:
www.colombiaactionnetwork.org**

**or for more information on where your tax money goes, go to:

Support the Right to Organize Locally!

Contact the governor at 651-296-3391 or tim.pawlenty@state.mn.us to voice your support for the bus workers on strike as they fight for better wages, healthcare, and working conditions. Our tax dollars should fund public transportation that is staffed by workers who have a union, a living wage, and good benefits! For more information on the bus workers strike go to www.atu1005.com
